

IARC/NCI Tumour Seminars

"Difficult Questions in Squamous Cell Esophageal Cancer Research"

29-30 September 2016

NCI

AGENDA

29 September 2016

08:30-09:00 Introductions, Stephen Chanock and Paul Brennan

Session 1: Descriptive and Analytic Epidemiology (Moderator: Freddy Sitas)

09:00-09:30 Global Burden of ESCC, Melina Arnold

09:30-10:00 The China Story, You-Lin Qiao

10:00-10:30 The Iran Story, Reza Malekzadeh (presented by Arash Etemadi)

10:45-11:15 Which risk factors are established? Farin Kamangar

11:15-11:45 New risk factors? Christian Abnet

11:45-12:45 Discussion

Session 2 - Genetics/Genomics (Moderator: Phil Taylor)

14:00-14:15 Genetic susceptibility, Phil Taylor

14:15-14:45 Family studies/ Exome, Alisa Goldstein

14:45-15:15 Genomic alterations in tumors, Chen Wu

15:45-16:15 Epigenetic alterations in ESCC, Luis Felipe Ribeiro Pinto

16:15-16:45 Genetics/Genomics research in Africa, Chris Matthew

16:45-17:15 Discussion

30 September 2016

Session 3 - Early Detection and Treatment (Moderator: Sandy Dawsey)

08:30-08:45	Overview, Sandy Dawsey
08:45-09:15	Early detection program in China, Wen-Qiang Wei, presented by You-Lin Qiao
09:15-09:45	STEP & DIRECT studies in Kenya, Mike Mwachiro
09:45-10:15	Primary screening test development, Rebecca Fitzgerald
10:15-10:45	Discussion
11:00-11:30	Early Intervention + Stenting, David Fleischer

Session 4 - Recent Field Studies and Future Needs (Moderator: Joachim Schuz)

13:00-13:30	ESCC studies in Kashmir, Nazir Dar (could not attend)
13:30-14:00	ESCC studies in Tanzania, Katherine Van Loon
14:00-14:30	African Consortium for Esophageal Cancer Research, Valerie McCormack
14:30-15:30	Summary and plan for publication
