

PRELIMINARY AGENDA

Monday 2nd June – HPV session

12:00-12:45	Lunch	
12:45-13:00	Paul Brennan and Massimo Tommasino, IARC, Lyon	Opening of the meeting
13:00-13:35	Michael Pawlita, DKFZ, Heidelberg, Germany	Overview of serology and tumour DNA results. Towards a gold standard for classifying HPV related head and neck cancers
13:35-14:10	Maura Gillison, Ohio State Univ, USA	HPV integration and genomic instability of head and neck cancer
14:10-14:30	Xavier Castellsagué, ICO, Barcelona, Spain	ICO international study on HPV in head and neck cancer: estimation of the HPV etiological fraction in over 4,000 samples worldwide
14:30-15:00	Open session: 2 short presentations from submitted abstracts	
15:00-15:30	Break	
15:30-15:50	Devasena Anantharaman, IARC, Lyon	HPV and other predictors of outcome in Europe, Brazil and the US
15:50-16:25	Gypsyamber D'Souza, Univ J Hopkins, Baltimore US	Oral HPV infection, natural history and transmission
16:25-17:00	Aimée Kreimer, NCI, Bethesda, USA	Primary and secondary prevention opportunities for HPV-driven head and neck cancers.
17:00-17:30	Open session: 2 short presentations from submitted abstracts	
Evening	Visit to a local agriturismo (i.e. a farm) for dinner	

Tuesday 3rd June (am) – Genomics session

9:00-9:35	Neil Hayes, Univ North Carolina, Chapel Hill, USA	The Cancer Genome Atlas (TCGA) Experience with Squamous Cell Carcinoma of the Head and Neck
9:35-10:10	Jeffrey Myers, MD Anderson, Houston, USA	Genomics of Oral Tongue Cancer Suggest a Need for New Perspectives on Pathogenesis
10:10-10:45	Sandra Perdomo, IARC	Circulating tumour DNA as a 'liquid

	Lyon	biopsy' in head and neck cancer
10:45-11:15	Break	
11:15-11:50	Luis Felipe Ribeiro Pinto, INCA, Rio de Janeiro, Brazil	TBA
11:50-12:20	Open session: 2 short presentations from submitted abstracts	
12:20-13:30	Lunch	

Tuesday 3rd June (pm) – Clinical advances and early detection session

13:30-14:05	Andrew Schache, Univ Liverpool, UK	Diagnostics and Disease Stratification in HPV positive Head & Neck Cancer
14:05-14:40	Tina Dalianis, Karolinska Institute, Stockholm, Sweden	HPV and expression of other biomarkers in relation to clinical outcome in oropharyngeal cancer
14:40-15:15	Andy Ness, Univ Bristol, UK	Early predictors of survival in a clinical cohort study of people with head and neck cancer in the United Kingdom - head and neck 5000
15:15-15:45	Break	
15:45-16:20	David Conway, Univ Glasgow, UK	Socioeconomic inequalities across the head and neck cancer continuum
16:20-16:55	Hisham Mehanna, Univ Birmingham, UK	TBA
16:55-17:25	Paul Lambert, University of Wisconsin / McArdle Lab	Host deficiency in DNA repair reduces dependency of head and neck as well as cervical cancers on continued expression of HPV16 E7
17:25-17:55	Open session: 2 short presentations from submitted abstracts	
17:55	Paul Brennan and Massimo Tommasino, IARC, Lyon	Close of the meeting
Evening	Visit to a local vineyard for wine tasting and dinner	

Wednesday 4th June to Sunday 8th June: Emerging Oncogenic Viruses meeting
